

Journal of Entrepreneurship Research (JER)

ISSN: 1735-7284

A biannual scientific and research-based publication of the Innovation and Entrepreneurship Center of the Science and Technology Park of the University of Tehran (IEDC), Iran.

Some Information for Our Contributors:

“Journal of Entrepreneurship Research” publishes scientific and research-based articles on entrepreneurship and related subjects that have not been published elsewhere. The authors are required to take into consideration the following points before sending their articles:

1. The articles should be typed in Word on A4 papers, Leaving 4.5 cm margins (by Garamond font, size 14), double spaced and no longer than 30 pages.
2. The honored authors are required to enclose the disk of the article too.
3. Notes to be observed for the articles:
 - 3.1. Title page should include the title, the authors’ names, affiliations, **telephone**, **fax** and **email**. Title should be concise in providing information about the content. It should not be capitalized except for the first letter of the first word.
 - 3.2. The articles should have an abstract about 300 words containing a brief description of **the background** and **the purpose** of the study, **methods**, **results** and **the major conclusions** that marked and summarized as far as possible accompanied by at least 8 **keywords**.
 - 3.3. Introduction should clearly define the purpose of the research with special attention to the background of the study.
 - 3.4. Literature and methods section should provide sufficient information about materials used and their specifications and sources of preparation.

3.5. Results section should be stated without comments with referring to tables or figures or schemes.

3.6. Discussion section should interpret the results in view of the problem outlined in the introduction and should not repeat the results. Discussion can be combined with results in one section.

3.7. A conclusion section should be added if results and discussion are combined. Conclusion should elucidate the general implication of the results.

3.8. Authors are responsible for the accuracy of all references. References should be numbered consecutively as they occur in the text in the parenthesis after last relevant word and listed in numerical order at the end of the text.

3.9. The tables and figures should be essential to the understanding of the text: the same data should not be presented in both tables and graphs. Abbreviations should be avoided or explained. Tables or figures should be clearly drawn and all the data should be identified.

4. The honorable authors' full name, postal and email address should be printed below the title of the article.

5. Figures and Graphs should be on separate pages and attached at the end of the article.

6. Bibliography must be alphabetically arranged and attached to the end of the article in the following sequences:

Author's name, year of publication, title of the article / book, name and number of journal / publisher, page numbers.

7. Articles and disks received will not be sent back to their authors.

Address: Innovation and Entrepreneurship Development Center of the Science and Technology Park of the University of Tehran, 16th St., North Kargar St., Tehran, 14398-17435, Iran.
